Professional Summary

Results-driven PMO Analyst with 3.3 years of experience supporting enterprise-level IT and banking projects in fast-paced environments. Proven track record in assisting 8 Project Managers across 15 development and 5 support initiatives, contributing to the successful go-live of 14 banking systems in the past year. Skilled in project planning, budgeting, resource allocation (300+ resources), risk tracking, and executive reporting. Proficient in MS Excel, MS Project, and Power BI with strong analytical, communication, and coordination skills. Adept at streamlining PMO operations and ensuring alignment with business continuity and governance standards.

Professional Experience

Designation – ***Assistant Systems Analyst***

Domain - ***TCS Bancs***

Tata Consultancy Services / May 2022 – Present

- Managed large-scale **banking projects** end-to-end, supporting project managers in executing Agile project lifecycle by developing **scope definition, Project Charters, Work breakdown structures (WBS), Budgeting, Scheduling, Statement of Work (SOWs), Change Requests, Risk Logs and Delivery milestones.**
- Handled **PO creation, timesheet tracking, revenue recognition, Profitability analysis, Capex and Opex budget forecasting**, including **BOC tracking** and **travel expense** reconciliation, ensuring financial compliance and audit readiness.
- Managed **resource planning**, **capacity analysis**, and **hiring control** activities in partnership with the **Talent Development Team** to maintain optimal project staffing.
- Ensured **timely sprint releases** in alignment with stakeholder expectations and quality benchmarks.
- Conducted **internal audits** for compliance with PMO process and standards.
- Facilitated **stakeholder engagement** through governance **meetings, RAID log reviews**, and cross-functional collaboration with IT, HR, and finance.
- Developed and **automated dashboards, status reports,** and **KPI logs** using Excel and Power BI, driving proactive issue resolution and leadership reporting.
- Maintained centralized **SharePoint** repositories for all project artifacts and templates, ensuring structured access and version control.
- Acted as **floor anchor**, managing **ADC seat allocation and deallocation** across delivery units to maximize space utilization and team alignment.
- Implemented and tested **Business Continuity Plans (BCP)** across projects and conducted periodic audits to ensure operational resilience.

Key Achievements

- Allocated and optimized **300+ project resources** contributed to a 8% cost reduction and improved delivery efficiency.
- Successfully supported **go-lives for 14 banks,** aligning project plans and stakeholder expectations.
- Standardized reporting templates, reducing report turnaround by 10% and improving accuracy.
- Delivered 100% of 36+ monthly sprint releases on schedule and ensure compliance with quality benchmarks.
- Reduced project risk through rigorous change control, risk logging, and milestone tracking.
- Successfully **integrated hiring and seat planning**, improving onboarding coordination with the talent development and infrastructure teams.
